

SNEHA BALU SHIRKE

Software Engineer | Python, React.js/Next.js, Full-Stack Development, AI/GenAI

Pune | snehashirke221@gmail.com | 7888076881 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Full Stack Developer with hands-on experience building scalable web applications using Python, Django, FastAPI, React.js, and REST APIs. Background in Artificial Intelligence & Machine Learning, with practical exposure to NLP and RAG (Retrieval-Augmented Generation) through project work — comfortable working through core GenAI concepts like LLM-based application design and prompt engineering. Skilled in designing and integrating backend services, developing reusable frontend components, and deploying cloud-based solutions on AWS. Experienced in Agile/Scrum environments with strong cross-functional collaboration, debugging, and unit testing practices.

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript

Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS

Backend/APIs: Django, FastAPI, Node.js, REST API design, ORM, MVC architecture, microservices

Databases: PostgreSQL, MongoDB, DynamoDB, MySQL

AI/ML & GenAI: NLP, RAG (Retrieval-Augmented Generation), LLM-based application design, prompt engineering fundamentals

Cloud & DevOps: AWS (Lambda, EC2, S3, CloudFront, DynamoDB), Git, GitHub, CI/CD, cloud deployment

Foundations & Practices: Data Structures & Algorithms, OOP, Agile/Scrum, unit testing, debugging, API integration, cross-functional collaboration

EXPERIENCE

Full Stack Developer — Vedant Info Edge India LLP, Pune

Sep 2025 – Mar 2026

- Developed and maintained scalable web applications using React.js, Python, and REST APIs, supporting core product functionality across the stack.
- Built reusable React.js frontend components and streamlined application workflows, contributing to noticeably faster page loads and a smoother user experience.
- Deployed and managed backend operations using AWS Lambda, DynamoDB, S3, and CloudFront, strengthening the reliability of cloud-based application delivery.
- Took ownership of debugging, unit testing, and issue resolution, meaningfully improving application stability and cutting down recurring production defects.
- Collaborated with cross-functional teams in an Agile/Scrum environment, participating in sprint planning and iterative development cycles.

PROJECTS

AI Resume Analyzer & Job Matcher | React.js, FastAPI, Python, NLP

- Built an AI-powered application using FastAPI and Python to analyze resumes and match them to job descriptions through NLP-based text processing.
- Implemented skill extraction, scoring logic, and automated recommendation generation to support candidate-job matching.
- Integrated a React.js frontend with the FastAPI backend via REST APIs to deliver end-to-end AI-driven analysis and reporting.

AI Document Intelligence Platform | React.js, FastAPI, Python, RAG

- Developed an AI platform enabling document upload, summarization, and interactive Q&A using Python and FastAPI.
- Implemented RAG (Retrieval-Augmented Generation) workflows to extract and surface relevant information from uploaded documents.
- Built AI-driven interaction workflows connecting the React.js frontend with backend REST API endpoints for real-time document analysis.

AI-Assisted Box Selection System | Python, Django, REST APIs

- Built a Python/Django application to recommend optimal shipping box sizes based on product dimensions and weight inputs.
- Implemented Django models, views, and REST API endpoints to handle product-to-box matching logic.
- Applied MVC architecture principles using Django's ORM to structure data models and business logic. [GitHub: Shirkesneha22/Assignment-AI-Assisted-Box-Selection-System](#)

EDUCATION

B.E. in Artificial Intelligence & Machine Learning — Savitribai Phule Pune University | CGPA: 7.21 | 2025

CERTIFICATIONS

- Python — HackerRank (Apr 2025), Udemy (Apr 2025)
- SQL — HackerRank (Sep 2025)
- AWS Cloud Practitioner — RineX.Ai (Aug 2023)
